The Office of Diversity Education Planning has a number of programs and initiatives not listed in the answers on the THRIVE Assessment. Some of these programs such as the Diversity Passport Program and the Workplace Inclusion and Global Competency Certificate Program are currently being revised, while others, such as the Diversity Champions program (in a revised iteration) are moving into the implementation stage. Please find attached documentation relevant to these past and ongoing programs, initiatives, and projects. ODEP has been instrumental in a number of university-wide programs and initiatives and award recognitions including the passage of the University’s Diversity Strategic Plan (2011-2016), the inclusion of diversity/inclusion goals in the updated 2016 University Strategic Plan, and the University’s annual recognition by INSIGHT into Diversity as a Higher Education Excellence in Diversity (HEED) Award recipient.
